

MEDIA = VIRUS

THE MANIPULATION AND FEAR-INDUCED MSM REPORTING IS CONTINUING IT'S VERBAL FEAR SPREADING UNABATED - to force a will upon us

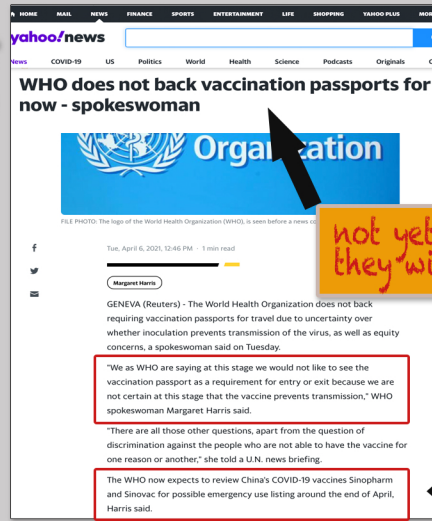

The European Medicines Agency (EMA) has set a sad record this year. Never before in the history of the drug watchdog have so many reports of serious adverse reactions and deaths come in after vaccination. The figures exploded in March, writes Christoph Uhlmann for internet newspaper Wochenblick.

Since the third week of 2021, the number of reported **adverse reactions** and **deaths** after vaccination has risen sharply. Between March 13 and April 3, the number of deaths exploded. Up to March 13, a total of 3,964 deaths had been reported, and by April 3, a few weeks later, there were already 5,993.

967 deaths have been reported following the administration of the AstraZeneca vaccine. 1,475 people died after the Moderna vaccine. Finally, 3,529 people have died after the Pfizer shot.

In the European database of reports on suspected side effects of medicines (**EudraVigilance**) of the EMA, 272,644 cases of side effects from these corona vaccinations have been reported. In addition, the website of the medical journal The BMJ suggests that not all cases may be reported. Many people experience a high fever, chills and even hallucinations after the injection.

To those that do not want to take the covid vaccine:

Sorry, you will eventually be forced to take it.

not yet, but they will

The ultimate winner

QUOTE: When the power of love overcomes the love of power the world will know peace. - Jimi Hendrix

FACTS: Many MSM journalists are activist disguised as journalists - editors included. MSM should be the protector of human rights of which many were infringed upon.* MSM should have been critical instead of fueling fears and uncertainties. Isn't that their mandate? MSM did nothing to question the WHO from the get-go. Instead they obeyed every word. Freedom must never be compromised. Freedom is our ultimate right. SA knows this well.

Where the western world is heading:

"Imagine" by John Lennon could be the new world anthem. A famous song that has been taken literally by those who are really in charge.

FACT: 1 Year later and real fatality rates are very clear. However, suppression of freedom is still prevalent.

QUOTE: Four hostile newspapers are more to be feared than a thousand bayonets - Napoléon Bonaparte.

JOKE OF THE DAY

Trying to make masks look cool for easier acceptance.

COVID MASKS

WILL.I.AM LAUNCHING 'XUPERMASK' IN PARTNERSHIP WITH HONEYWELL

WILL.UR.NOT

Opportunistic. Non-ethical. Degrading. Implying that face masks are a most normal thing.

COVID-19 could become the new common cold: Experts predict the virus is here to stay - but will become weaker over time

- Public health experts believe COVID-19 will likely become an endemic disease, meaning always present in the population but circulating at low rates
- Recently, a new model looked at studies of the four common-cold coronaviruses, all of which infect most people at a young age
- The model assumed the immunity that humans build up against the new coronavirus is similar to those of other coronaviruses
- It found that the infection-fatality ratio will keep falling over time until it reached below 0.1%, similar to that of the seasonal flu

This mean that many people would be infected with COVID-19 during providing some immunity against severe illness, but not necessarily against reinfection

The WHO tweet that started it all...

World Health Organization (WHO) @WHO · Mar 3, 2020

"Globally, about 3.4% of reported #COVID19 cases have died. By comparison, seasonal flu generally kills far fewer than 1% of those infected"-@DrTedros #coronavirus

151 2.8K 2.1K

Slowly the figures are becoming clearer. WHO: Time to adjust your figures. MSM editors, you agree?

Flu is a serious disease that kills hundreds of thousands world-wide every year.

One day, those who are responsible for their decisions will have to answer.

Flu is a part of our lives but does not hinder our way of life nor infringe on our rights. Should Covid be treated in a similar way?

Dr Reiner Fuellmich says lockdowns are a crime against humanity
