

MEDIA = VIRUS

THE MANIPULATION AND FEAR-INDUCED MSM REPORTING IS CONTINUING IT'S VERBAL FEAR SPREADING UNABATED - Are we being played out?

We are being played out against each other. MSM, social media giants and others conform to the rule book as set out by the WEF, UN, EU and several foundations that provide funding for radical activists groups (BLM, Extinction Rebellion and others) that follow these rules. Foundations do not need to declare their spending habits, so the money trails are hard to trace. The Roman emperor and strategist, Julius Caesar, gave us a famous saying: Divide And Conquer. We all know it, but do we really understand it's meaning? It's a simple plan but effective. More below.

QUOTE: We must learn to live together as brothers or perish together as fools: Martin Luther King Jr.

Divide and rule (Latin: *divide et impera*), or **divide and conquer**, in politics and sociology is gaining and maintaining power by breaking up larger concentrations of power into pieces that individually have less power than the one implementing the strategy.

Merriam-Webster SINCE 1828

divide and conquer

Dictionary Thesaurus

divide and conquer idiom

Save Word

variants: or **divide and rule**

Definition of divide and conquer

: to make a group of people disagree and fight with one another so that they will not join together against one

// His military strategy is to *divide and conquer*.

Let's take an example by using a typical article published in News24 on 14 April:

- The article points to ongoing White vs Black violence.
 - Highlighting the "loving innocent persona" of the victim.
 - A Black person was killed by a White policeperson.
 - The Black person is the victim, the White person the aggressor.
- This is the narrative every time when race is deliberately included in this specific order. The other way around does not seem to be that interesting to MSM.
- This image was also included to add effect and provide an impression towards 'ever-present' White vs Black conflict.

This is the Divide And Conquer strategy and there are many many examples that can be used. Justice is not relevant here, it's all about the suggestion of a deliberate racist deed and fueling it into a racial conflict to divide us all. MSM people, are you deliberately turning trickling waters into a torrent river?

Why do this? It's required to achieve the Great Reset. To reset our set society and force a shift in Western thinking by forcing us to remodel Western society, culture and history to make us all dependent on a new non-democratic system of control by a small group of non-elected powerful people. Their names and organisations have been mentioned before. They are prominent people, investment co's and foundations.

Stop dividing us MSM, Stop fuelling division. We all want to live in peace together. This tragic incident is between two persons. No more, no less. Let the courts decide who is wrong or who is right. Put your trust in them.

We are *all* tired of constant racial narratives. But then, these narratives are necessary to ensure we must believe that racism and racial aggression is everywhere. This is not true but how else can you follow and implement a strategy devised by the late, great Julius?

Lord Minto **adopted** the strategy of **Divide and Rule**. The fearful British Government decided to apply the **policy of 'Divide and Rule'** to break the unity of the people.

Min. mom describes talking to son before shooting

The mother of a Black man who was fatally shot by police in a Minneapolis suburb during a traffic stop said she spoke to her son just before his death. Daunte Wright's killing has sparked violent protests as officers clashed with demonstrators.

AP

- The man who was shot dead by police on Sunday was kind, liked basketball and had a tight-knit family, his family said in media interviews.
- Daunte Wright loved playing basketball with his 2-year-old son.
- He was pulled over for what police said was an expired registration and one officer mistakenly used her pistol instead of her taser.

Daunte Wright, the 20-year-old Black man who was fatally shot by a white police officer in a Minneapolis suburb during a traffic stop on Sunday, was kind, liked basketball and had a tight-knit family, according to media interviews with his relatives.

During a memorial vigil on Monday evening at the spot where Wright was killed, relatives remembered him as a good-natured father who worked multiple jobs to support his son.

"My brother lost his life because they were trigger happy," his older half-sibling, Dallas Wright, told the crowd.

Tensions rise after Black man shot by police in Minnesota

Tensions have heightened in Minnesota after a Black man was shot by a police officer during a traffic stop. The local police chief says it was an accidental discharge, while angry protesters again took to the streets.

Wright's aunt, Naisha Wright, told CNN late on Tuesday evening that she could not accept the explanation that the officer who fired the fatal shot, identified as 26-year department veteran Kim Potter, used her gun by mistake.

Anticipatory anxiety: A clinical term used by MSM for creating sensation & uncertainties which seldom becomes fact: would, could, what if.

What is anticipatory fear?

Anticipatory anxiety describes **fear** and worry around bad things that could happen. It can happen in a lot of different contexts, but it commonly focuses on things you can't predict or control. 17 Mar 2020

As dictated by their bosses and sources (Reuters et al and money-supporting foundations), MSM has embraced anticipatory anxiety for decades to sell their chosen content. Reuters is the most-used news source for all MSM media.

Only recently, it has been escalated into all-out reports based on this term. Covid, climate change and mostly conservative political views have been the victims of this fear tactic. Again, you have to know who the MSM, their owners & contributors are; a synchronised media machine who publish news articles from similar sources like Reuters. That is why newspapers all read so similar. Have a look at the top of MSM articles for their sources. Find different MSM newspapers from different countries and compare for yourself.

You can also compare Reuters with the WEF: The one spreads their message via media, the other via world leaders. Both media and world leaders listen and send these messages and agendas through their chosen spokespersons to us.

Both institutions' messages are similar. Lockdowns, Covid measures, sowing divisions and climate change crisis fears are good examples of anticipatory fear coming from both these institutions. Both embrace globalism and share socialist ideologies.

Summarised in a nutshell, now you know who decides your news fix. Julius Malema has a point: White Monopoly Capital.
