The US is voting to pass a \$1,000,000,000,000 law through Congress and the Senate. It's called the Infrastructure Bill. The US is indeed in much need of infrastructure improvement. The thing is this bill is not only about infrastructure. It's about much more unrelated issues that Democrats (globalists) quietly want to implement into law. Just as Obama does not really believe Covid is a threat because of his lavish 60th party celebrations at his house by the sea (which will be underwater in a few decades according to the CCC), US Democrats don't really believe in a free-market society. It's too hard to control.

Republican Crisis: Tucker Carlson Exposes Nightmare Provisions Of Infrastructure Spending Bill

Draconian laws contained within massive \$1 trillion legislation would convert once-free country into high-tech version of North Korea.

The "infrastructure" bill, which 17 Republican senators voted to move forward this week, aims, among other things, to criminalize "science denial" and make "gender identity" federal law.

"It's 2,000 pages long. It would cost more than a trillion dollars. It will not pay for itself, despite what they told you," Carlson said Friday on "Tucker Carlson Tonight."

"As much of it as has nothing whatsoever to do with infrastructure. Meaning fixing our crumbling roads and bridges and airports and train stations and all the rest that embarrasses America."

Buried in the Bipartisan Infrastructure Bill: In-Car Breathalyzers

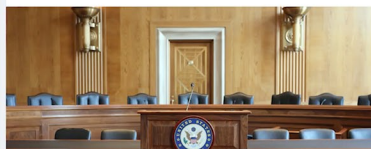

Drinking and driving nobody wants. And that is one of the mandates the bill aims to fix. A system would have to be installed to detect drunk, impaired, or fatigued driving. Sensors that are similar to what police use will scan your eyes for suspected drunk driving.

New \$1 Trillion Infrastructure Bill Includes 'Gender Identity' As Protected Class

Posted by Sally Kohn | Aug 8, 2021 | Government Updates

Page 2,149 includes the following stipulation:

"No individual in the United States may, on the basis of actual or perceived race, color, religion, national origin, sex, gender identity, sexual orientation, age, or disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity that is funded in whole or in part with funds made available to carry out this title" (Emphasis added).

Sometimes labels are needed to describe and explain, but not always.

We are all one and the same, but we are labelled by MSM and others: transgender, non-binary, anti-vaxxer, denialists, woke, left, right, ignorant, African American, cancelled, racist, conspiracist, expert, unhinged etc.

I'm tired of MSM & politicians dividing us all as soon as we are different to their model human.

Free world: Be very worried if this is passed.
This would mark the end of free speech and debate.

WORLD TOTALS

2017 Respiratory disease deaths over 12 months: 3.91 M
2020/21 Covid-19 deaths over 18 months: 4.37 M
From February 2020 to August 2021

Something doesn't add up. Let's break it down:

3.91 million / 12 = 325,830 deaths per month
4.37 million / 18 = 242,770 deaths per month

Good idea! Let's bring those that spread climate & Covid lies to justice.

1972: UN "environment protection boss" warns:

"We have ten years to stop the catastrophe"

1982: Tolba, head of UN Environment Programme in The New York Times:

If the nations of the world continue their current policies they will face by the year 2000:

"an environmental catastrophe as irreversible as any nuclear holocaust"

1989: Senior UN environmental official tells Associated Press, published around the world

We have to fix climate change by 1999 or climate change goes beyond human control:

"Global disaster, nations wiped off the face of the earth, crop failures"

1990: Mostafa Tolba, head of UN Environment Programme:

We must fix climate change before 1995:

"We shall win – or lose – the climate struggle in the first years of the 1990s"

Fauci Says He Expects Vaccines For Younger Children By The End Of Year Or Early 2022

Dr. Anthony Fauci, the chief medical adviser to President Biden, says that he expects COVID-19 vaccinations to open up to younger children in the coming months.

He said Wednesday that children at least as young as 4 "would likely be able to get vaccinated by the time we reach the end of calendar year 2021 and at the latest, into the first quarter of 2022."

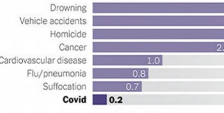

Watch it, creep. This is overstepping a line. I will not let my kids (aged 9 and 13) be vaccinated for something that does not harm them.

When they are adults, they can decide to take any vaccine for themselves.

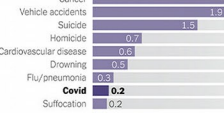

Until then, it's a no.
