

MEDIA = VIRUS

THE MANIPULATION AND FEAR-INDUCED MSM REPORTING IS CONTINUING IT'S VERBAL FEAR SPREADING UNABATED - double up your mask!

When Chinese Covid-19 was first catapulted into the world, we were all scared and uncertain. As more info came forward, more doubt was created. Something was off. The numbers did not fit the hysteria; the symptoms, age group risk and mortality rates were not in line with the fear that was created by MSM and state. Even though there was doubt, people could not speak up to voice their doubts. Social Media, MSM and state simply did not accept any views other than their own. "Conspiracy theorist", "dumb", personal attacks and general social exclusiveness stopped people from forming their own opinions and sharing them. This form of forced submission was a very clever strategy and seemed to work. No anymore. Too many know the reality and this reality is not what MSM and state want.

QUOTE: MSM has become the protector and patron for the people in power

Taboo questions in a suppressive coordinated world regime:

- Did Covid originate in China and how?
- Why are symptoms of Covid and Flu so very similar?
- What has become of world-wide Flu infections?
- How many have died from Covid without underlying illnesses?
- Why is Covid not more deadly than aggressive Flu to healthy people?
- Why is constructive scepticism towards Covid not accepted?
- Why have we prevented kids from full education when Covid has no effect on them?
- Why does the vaccine jab cause death due to Trombosis with some people?
- Why are there new Covid infections in retirement homes who were vaccinated?
- Why are experts that do not agree with the WHO stance not asked for their opinion?
- Why is a one-sided opinion accepted as gospel and others are ignored?
- How is it possible that state, MSM & Big Tech all speak the same words with the same opinions and views?
- Where the fuck is Waldo?

But the stats and facts are not far off

TO SAY COVID19 = FLU IS TOTALLY TABOO IN A PC-OBSSESSED WORLD

FACT: Eventhough there were medicines that have shown to work for Covid-positive patients like hydroxychloroquine and Ivermectine, they were set aside as fake news and charlatanism. Why? According to international agreements, pharmaceutical manufacturers can only engage in accelerated vaccine development processes if there are no first-line medicines available. Look it up if you want. Vaccine sales is big business. Ask my friend "Dr." William Henry Gates III.

AIRFRANCE KLM

As published early January 2021:

Exceptions to the requirement to present a negative test result

The following people do not need a negative test result:

- Children under 13;
- People arriving from countries on the [EU list of safe countries](#);
- People arriving from Iceland;
- Cross-border commuters (including students and school children);
- Holders of a diplomatic identity card issued by the Dutch Ministry of Foreign Affairs;
- Holders of non-Dutch diplomatic passports;
- Holders of Dutch diplomatic passports, if they are travelling as part of their job, in order to perform their job or after performing their job;
- Heads of state and members of foreign governments;
- Individuals who work in the goods transport sector, and other transportation personnel in so far as necessary. This includes lorry drivers and individuals who work on container ships, bulk carriers (e.g. of ore and coal), tankers (fuel and chemicals) and fishing vessels. It also includes individuals who work in the energy sector, including oil and gas platforms and offshore wind farms, offshore companies that provide services to this sector, and air, cruise-ship and ferry crew members if they are travelling in order to perform their job;
- Seafarers who possess a seaman's record book if they are travelling as part of their job, in order to perform work or after performing work. This exemption does not apply to seafarers on commercial yachts and pleasure craft;
- Passengers on flights which do not have a Dutch airport as their destination, but are diverted to a Dutch airport due to unforeseen circumstances.
- Passengers with a NATO Travel Order or a NATO-2 visum.

Requirement exceptions for flying with KLM:
If you are a diplomat or have a NATO visa or are a head of state, there's no need for a negative Covid test to fly with them. This is hypocrisy at the highest level!

Growing list of countries suspending AstraZeneca vaccine may be doing more harm than good - experts

Marianne Guenot, Business Insider US
Mar 16, 2021, 04:05 PM

- AstraZeneca's Covid-19 vaccine has been suspended in 16 countries, over a supposed link to blood clots.
- AstraZeneca heavily disputes that the link is real, as do health authorities elsewhere.
- The countries suspending the shots say they are doing so as a precaution.
- Many experts say that a stop-start approach is undermining confidence. Meanwhile, Covid-19 is still spreading.

Look at the wording carefully: Heading is correct, but in the sub headings this "killer vaccine" is already been protected and defended.

Just another article where hard questions are simply not asked. What happened to hands-on journalism?

It's simply reported because they have to. Nothing more, nothing less.

Professor of Medicine Brags About Wearing Two Face Masks to Inauguration Despite Having Been Vaccinated

Later deleted tweet after being ridiculed.

Published: 1 week ago on 19 January 2021
Paul Joseph Watson

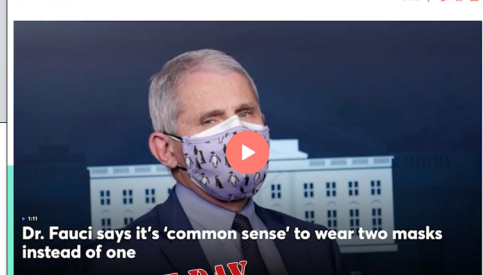

Stegan Ramsey MD MPH (@steganramsey) · Off I go to Washington2021... with an old NHS under my cloth mask. Heedie jibes from being in an airport, despite being fully vaccinated! It's thankful for the extra layer of security screening we're about to go through before boarding. (Show this thread)

Dr. Fauci: Double-masking makes 'common sense' and is likely more effective

Cory Wong @CORYWONG

Dr. Fauci says it's 'common sense' to wear two masks instead of one

JOKE OF THE DAY
they are your experts

Alternative reporting:

95% of all Covid cases in SA have recovered so far and there are only 27,000 current cases of which almost all are self-isolating at their homes in front of their TV's. Less than 5% of infected people have died of Covid and most were already sick and/or of advanced age. We expect this rate to decline ever further in line with averages of just over 2%. Since there is no Influenza anymore it means that up to 12,000 lives in SA have been saved by Covid. If you feel that your chest is a bit tight, order some Ivermectine from your doctor or pharmacist for fast relief and remember: Stay Safe by avoiding extreme sports and minibus taxi's.

Comfort: eventually the truth always comes out
