

MEDIA = VIRUS

In the one-sided world of MSM, it's never as it seems. What they condemn and stand for could very well be the same thing. Inclusiveness and more diversity are closely tied to MSM. While a very good thing altogether, they are quick to expose those who do not conform. The thing is that their heroes & exemplary people are often opposites of this narrative. Not to worry, MSM knows how to turn a blind eye. It's easy to do, since they have been partially blind for decades already. Everyone should be treated equally. This sounds like the right thing to do, and it is. Not so much for MSM. Not so much.

QUOTE: Actions prove who someone is, words just prove who they pretend to be - the observant ones

Number of Chinese Communist Party (CCP) members in China from 2010 to 2021, by ethnic group

Xi himself - president for life

3 women out of 44 in a single random shot. No Black, White, Indian, Latino, Jew or Arab to be seen.

No inclusion, no diversity in China. Even when trying to search Google to question why this is, you will not get a clear result.

Why not send migrants over to China for a bit of diversity over there? Because China won't allow it, and that's just fine with MSM, activists and civil action groups. They ignore this fact.

VACCINE CERTIFICATES

WATCH I SA launches Covid-19 vaccine certificate system

SA's Covid-19 Vaccine Certificate System has officially been launched. It will enable vaccinated people to access and download a digital copy of their Covid vaccination card.

news24

At the end of August, people over the age of 18 became eligible to get their Covid vaccine – the health department says they will make an announcement at the end of October about when vaccinations for those younger than 18 will start.

But some young adults are still on the fence about whether getting the job is worth it since they're considered a low-risk group. The fourth round of the University of Johannesburg and Human Sciences Research Council Covid-19 democracy survey found that while overall acceptance of the vaccine had increased among adults, acceptance among those aged between 18 and 25 had declined from 63% to 55%.

There are many pros to getting your shot – it protects you and those close to you. But don't take our word for it, an infectious diseases expert helps break it down.

You're still sitting on the fence about getting vaccinated. You have questions. You have concerns. We get it.

Is MSM directed by global foundations? The facts as presented by MSM seem based on their guidance. True or not?

PICS | Police arrest 2 anti-vax protesters in Cape Town

news24 Words Meyer

Two protesters were arrested for refusing to wear a face mask during the Covid-19 vaccination march in Sea Point.

(Photo by Gallo Images/Brenton Geach)

Two anti-vaxers were arrested in Sea Point on Saturday.

Scores of unmasked people gathered in the area to voice their opposition to Covid-19 vaccines.

The two were released on a warning, and will appear in court next month.

Two anti-vax and anti-mask protesters were arrested in Sea Point on Saturday, as Cape Town police clamped down on demonstrators for refusing to wear masks.

A group of about 40 protesters, many unmasked, staged a peaceful demonstration at the Sea Point pavilion, but things got out of hand when the police, after numerous warnings, arrested two people.

South African deaths up to 19 years old: 37,689. Compare to with Covid deaths for real context.

Table 3.1: Number and percentage distribution of deaths by age, 2017

Age group Number Percentage

0 19 549 4.4

1-4 6 051 1.4

5-9 2 617 0.6

10-14 2 900 0.6

15-19 6 572 1.5

<https://www.statssa.gov.za/publications/P03093/P030932017.pdf>

Health, Pharma & Medtech • State of Health

Number of coronavirus (COVID-19) deaths in South Africa in 2020, by age

10 out of 2657 = 0,38% or saying 99,62% of deaths are above 19 years of age.

Using the words: a small percentage dies under 19 years of age is misleading - its really, really small. No need for a vaccine.

Number of deaths

0-17 years 43

18-29 years 339

30-39 years 164

40-49 years 652

50-59 years 717

60-69 years 492

70-79 years 246

80-89 years 65

90-99 years 1

100+ years 20

Total 2 657

© Statista 2021

Finding SA Covid stats is not easy. The article compilers know this too, hence they (happily) avoid mentioning factual figures. The numbers below are from the US and more recent.

Number of coronavirus disease 2019 (COVID-19) deaths in the U.S. as of October 6, 2021, by age*

Again: WITH Covid, not DUE TO Covid.

Total deaths from COVID-19 700,952

0-17 years 499

18-29 years 3,739

30-39 years 10,872

40-49 years 27,172

50-59 years 122,500

60-69 years 157,673

70-79 years 185,180

80-89 years 193,317

90-99 years 193,317

100+ years 193,317

499 out of 700,952 = 0,07% or saying 99,93% of deaths are above 17 years of age.

Compare this to vaccine complications and risk and rewrite your article.

Soft targets - next time do the same during an EFF protest. But you won't do this, SAPS. Too scared, hey?

SAPS civil servants armed with riot gear and shields for 40 people. Was this necessary? Similar exaggerated actions against Covid policy protests are found all around the world. When the far-left socialist EFF marches in their hundreds, mostly without masks, it's ignored.
