

MEDIA = VIRUS

The WEF is coming out of the closet. After years of planning they are hiding no more. World domination by a handful of foundations and organisations is rolling out. Sounds like a disaster movie. Actually, that's just what it is. Brilliantly conceived. Poorly enacted. The master planners are getting on in life and time is of the essence with MSM as their megaphone in full swing. Listen, read and be informed of what we are facing. If you like their ideas and visions, you are living in a time of great happiness. For the majority here on earth, it's a time to be awake and to be well-informed. We need to reset ourselves with an open mind. Agree?

QUOTE: Fall from ignorance, and you will rise to reason - Matshona Dhliwayo

Klaus Schwab. Founder of the World Economic Forum, Wikipedia page:

Capture of democratic structures and institutions

Schwab as publisher of the World Economic Forum's 2010 "Global Redesign" report postulates that a globalized world is best managed by a self-selected coalition of multinational corporations, governments (including through the UN system) and select civil society organizations (CSOs).^[25] He argues that governments no longer are "the overwhelmingly dominant actors on the world stage" and that "the time has come for a new stakeholder paradigm of international governance". The WEF's vision includes a "public-private" UN, in which certain specialized agencies would operate under joint State and non-State governance systems.^[26] According to the *Transnational Institute* (TNI), the Forum is hence planning to replace a recognised democratic model with a model where a self-selected group of "stakeholders" make decisions on behalf of the people.^[27] The think tank summarises that we are increasingly entering a world where gatherings such as Davos are "a silent global *coup d'état*" to capture governance.^[28]

https://en.wikipedia.org/wiki/Klaus_Schwab

MSM is aware of the WEF's stance. They are also influenced and dictated to just as governments are. You will hear no criticism from them. Silence is consent. True or not?

There you go. State Capture and a Great Reset ideology can be compared directly. Democracy as we know it must fall and the world must be governed by powerful globalists instead of chosen governments. In other words, governments are to be governed by non-elected elite. It's already happening. Covid was the catalyst.

WORLD ECONOMIC FORUM

COMMITTED TO
IMPROVING THE STATE
OF THE WORLD

This double meaning slogan is a clever way to highlight their ideology: the world as a state.

There have been at least 71,048,000 reported infections and 1,641,000 reported deaths caused by Covid-19 in Europe so far.
<https://graphics.reuters.com/world-coronavirus-tracker-and-maps/regions/europe/>

1,641,000 deaths / 20 months = average of **82,050** monthly.

Spring next year is mentioned. Let's use March 2022. This is 4 months from now. This report estimates that 700,000 deaths could occur. This is **175,000** people per month (700,000 / 4).

Currently 66% of the entire EU has been fully vaccinated.
vaccinetracker.ecdc.europa.eu/public/extensions/COVID-19/vaccine-tracker.html#uptake-tab

Therefore, the monthly IFR in Europe will have to more than double from now until March. **M=V hereby states that this will not happen.**

If it does, (and it won't) what does that tell you about the 66% of the EU population that is fully vaccinated? You cannot claim that the additional deaths are solely from the vast minority (34%) of unvaccinated people.

What this tells us is that vaccines do not work as advertised. True or not?

Fact check for context:

"Circulatory diseases is the #1 killer globally, and in the EU alone accounts for 1.8 million deaths every year or 36% of all deaths". Covid caused slightly over half this figure in 12 months (984,000 vs 1,800,000).

Europe remains "in the firm grip" of Covid-19 and the death toll on the continent could top 2.2 million this winter if current trends continue, the World Health Organization said on Tuesday.

About 700 000 people could die in the coming months, the WHO said, as cases creep up across Europe, prompting some countries to reimpose tough restrictions.

The WHO expects "high or extreme stress in intensive care units (ICUs) in 49 out of 53 countries between now and 1 March 2022".

"Cumulative reported deaths are projected to reach over 2.2 million by spring next year," it added, up from the current 1.5 million.

Covid-19 is the leading cause of death across Europe and Central Asia, the WHO reported, citing figures from the Institute for Health Metrics and Evaluation.

Sense of Smell Can Be Victim of Bout With Flu

BY JOHN NOLAN
FEB. 21, 1988 12 AM PT

ASSOCIATED PRESS

CINCINNATI — If you recently suffered from the flu and have not recovered your sense of smell, you aren't alone, researchers say.

Some patients complain that they are unable to smell things or to taste food after a bout of influenza. Researchers at the University of Pennsylvania and the University of Connecticut first reported the problem and have been looking into it.

It has also come to the attention of researchers at the University of Cincinnati College of Medicine, where patients who come in for treatment at a center for taste and smell disorders have complained of the malady.

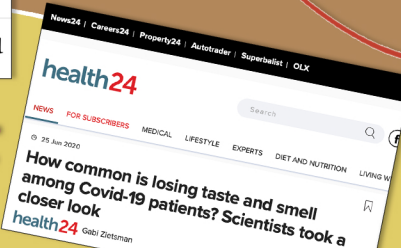

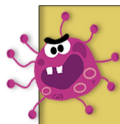

Loss Is Usually Brief

It can happen to people who suffer from flu or upper respiratory infections, said Robert Frank, a University of Cincinnati psychiatrist. It is common for sufferers with colds or the flu to lose their sense of smell—and, as a result, their ability to taste—briefly during the time of the ailment. But, Frank said, some people do not regain their sense of smell for months, or longer.

"These people are seeing us six months after the flu has passed, and they still don't have their sense of smell," he said. "We still don't even know if it's permanent or not. . . . We don't know for sure right now, but we think there may be people who permanently lose their sense of smell after this kind of episode."

After a period of time, some victims report sensing a persistent, strange odor. Researchers have not determined what that means, Frank said.

latimes.com/archives/la-xpm-1988-02-21-mn-44059-story.html

MSM reporting made us to believe that the loss of smell and taste is a unique long-term symptom caused by Covid-19 when compared to flu. This 1988 article about post-flu symptoms compares just about identical to Covid smell & taste loss.

Similarities:

Both COVID-19 and flu can have varying degrees of signs and symptoms, ranging from no symptoms (asymptomatic) to severe symptoms. Common symptoms that COVID-19 and flu share include:

- Fever or feeling feverish/having chills
- Cough
- Shortness of breath or difficulty breathing
- Fatigue (tiredness)
- Sore throat
- Runny or stuffy nose
- Muscle pain or body aches
- Headache
- Vomiting and diarrhea
- Change in or loss of taste or smell, although this is more frequent with COVID-19.

Trans university professor sparks fury after claiming sexual attraction to children isn't always immoral: Wants to destigmatize pedophilia and use term 'Minor-Attracted Persons' instead

- Allyn Walker teaches sociology and criminal justice at Old Dominion in Virginia
- They said pedophiles who do not act on urges should not be seen as immoral
- The professor said child sex abuse is "never OK" but people cannot control desire
- They have penned controversial book attempting to destigmatize pedophilia titled *A Long Dark Shadow: Minor-Attracted People and Their Pursuit of Dignity*
- Change.org petition calling for Walker's removal from the school's staff has amassed nearly 3,000 signatures
